

At a glance Intuvia 100

BOSCH
Invented for life

LED Remote or Mini Remote

Depending on your eBike's setup, operate your Intuvia 100 via the LED Remote or Mini Remote.

Functions

- A** Battery charge level
- B** Support level
- C** Arrow buttons: Toggle between screens
- D** Select button: Confirm
- E** Plus/Light button: Increase support level/switch light on & off (3 sec. press)
- F** Minus/walk assistance button: Reduce support level/walk assistance (hold down & move eBike after one sec.)

Intuvia 100

The Intuvia 100 must be inserted in the mount before it can be switched on. Activate the Remote and move the eBike slightly.

- G** Battery charge level
- H** Light status
- I** Support level
- J** Drive unit support
- K** Current speed
- L** Ride data
- M** Text display (shift recommendation, eBike lock, etc.)
- N** Bluetooth® button one sec. press: Connection with eBike system (pairing)
