¹ Brief press (< 1 second)

² Long press (> 1 second)

Get more out of your eBike and make it your own – with the eBike Flow app.

Connect the eBike Flow app to your eBike with the smart system – this allows you to customise, expand and keep it up-to-date according to your requirements. You are able to plan routes and navigate, use features for greater theft protection, record your activities and more. You can also conveniently transfer updates for your eBike via Bluetooth.
